2010

CPM6625 • Euromix Ivory
Photographed by David Mullenix

To Our Customers and Friends,

FREEDOM CLOTH®! FREEDOM CLOTH®! FREEDOM CLOTH®!

This great backdrop product was introduced nearly 2 years ago and has made a huge impression on the photographic industry. We have effectively eliminated nearly all of the problems associated with traditional forms of backdrops.

Imagine a backdrop that can be stored in a bag and then has few or no wrinkles when taken out of the bag to use. No foul paint odors! It is washable and colorfast. It can be thrown in the dryer or steamed easily if required. The color rendition pops and it projects realism like never before!

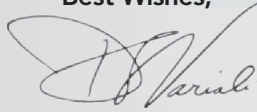

If you have not tried a Denny Freedom Cloth® backdrop, I urge you to because I know you will never return to the old style of Hand-Painted Muslin backdrops.

For nearly 39 years, we have taken great pride in our product quality and customer service. There is great value in our products! If you are not happy with your purchase, we will go to great lengths to rectify any problems you may have. I personally guarantee your satisfaction or your money back!

I hope you will enjoy our new catalog. View our new and improved website www.dennymfg.com in early 2010!

Have a great year and thanks for letting us help you to succeed in business.

Best Wishes,

Denny Variali
Chairman and CEO

On the cover: CPM6625, EuroMix Ivory, as photographed by David Mullenix. Through A Lens Photography, started by David and Elayne Mullenix a little over 10 years ago, is different by design. Separating themselves from the crowd with innovative concept photography they have turned more than a few heads in the photographic industry. The creative team, including

partner Carissa Scheldt, has never settled for mediocrity and is known for pushing the envelope of personal expression. A large body of their inspiration can be viewed at www.seniorsthroughalens.com.

"Using Denny backdrops has enabled me to offer more variety than I ever thought possible to my clients," David says. "Denny's new Freedom Cloth® is fantastic! The vibrant colors and ease of use have changed the way I shoot. In fact, the quality of their products and excellent customer service is unmatched in the industry. I can highly recommend them."

WHAT YOU'LL FIND INSIDE...

HAND-PAINTED BACKDROPS

Our Hand-Painted backdrops are at a quality level all their own. After 39 years of experience, we've mastered creating the perfect Hand-Painted replicas everytime. We have mastered the most delicate of color changes in our Old Masters, Solids, Splashes and Muslins. All together, our series of Hand-Painted backdrops are sure to please.

COMPUTER PAINTED BACKDROPS

NEW! **Denny Freedom Cloth®** backdrops! After years of research to find a lightweight, wrinkle-resistant fabric similar to muslin, we have found the special material! In addition to this fabulous new material, the Computer Painted backdrops are available in a canvas-like material called "Supercloth" as well as a TwistFlex™ Portable Backdrop.

SPECIALTY BACKDROPS

In addition to our Hand-Painted and computer painted backdrops, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backdrops, support systems and miscellaneous items can help your studio function at its best.

ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

NEED A WIDE BACKDROP TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Computer Painted Freedom Cloth® (CPM) backdrops are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Backdrop eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of bad weather on the day of your photo shoot. Choose from any of our Computer Painted Backdrops. Traditionally, our Computer Painted Backdrops have been printed on a canvas-like material called Super Cloth™.

The Computer Painted Freedom Cloth® backdrops are made on wrinkle-free material which can be easily draped or pulled tight for a more traditional effect. The material is a compact which easily fits into the FREE muslin bag for easy portability.

When ordering Freedom Cloth® backdrops, make sure you specify width x height to avoid any printed dimensional errors. A three-inch hem is put in the top width of the backdrop to alleviate the need for backdrop clamps! It is safe to use an iron, steamer or dryer on the backdrop should it acquire wrinkles.

Production time is approximately 2-3 weeks for Computer Painted backdrops. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

NEED A QUICK & EASY SET-UP FOR YOUR ON LOCATION SHOOT?

If you like the light compact quality of the Freedom Cloth® backdrops, but always want the backdrop stretched tight, a TwistFlex™ backdrop could be for you! You can get any computer painted backdrop as a TwistFlex™. TwistFlex™ backdrops are available in 5' x 6' and 6' x 7'. These backdrops twist down in their self-storing bags to 24" x 33" respectively.

LOOKING FOR A UNIQUE BACKDROP?

If you have an idea that's just what you want but no where to find it, ask one of our friendly sales associates about the possibility of turning your vision into a Computer Painted reality. You can design custom prom backdrops to be school/theme specific or you can place your customers in front of Mt. Rushmore without leaving the studio. We've completed countless projects that were once only a dream. Send us glossy stock, digital files, sketches or you can have us compose a final image for you.

Another Denny Exclusive!

After years of concerns over sagging and creasing full length canvases, Denny has found a special material called Super Cloth™! This is a non-woven material that has proved to be durable over time. All backdrops are mounted with flat wood across the top of all backdrops. Three 5/8" holes are drilled on the back of the top wood which allows easy insertion of backdrop stand. A round dowel is attached along the bottom width of each backdrop. Velcro straps on each end keep it securely closed when not in use.

WHAT IS WOOD MOUNTING?

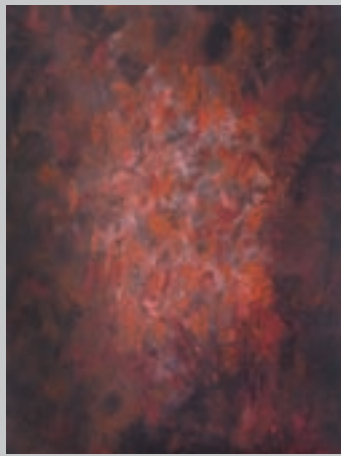

OM1500 • Neo-Classical

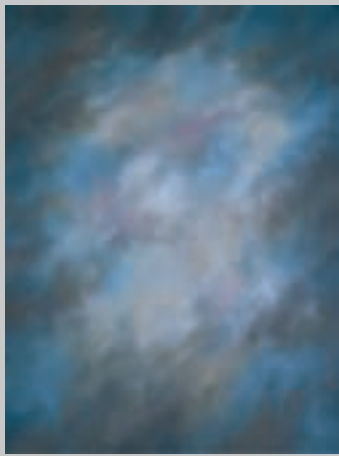

OM1500 • Neo-Classical

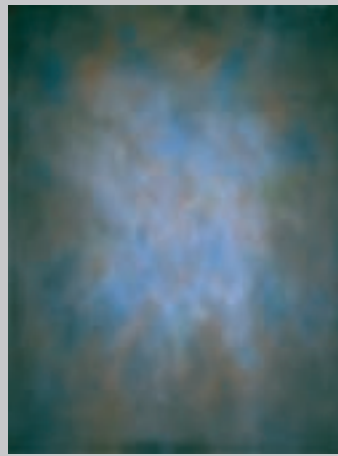

Wood mounting is **COMPLIMENTARY** on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

TIM & BEVERLY WALDEN

"Years ago when Beverly and I were looking for the perfect backdrop for our 'Relationship' Black & White portraiture, we contacted the folks at Denny Manufacturing. They helped us develop what is now

called the 'Walden Backdrop' [OM2275]. Every aspect of a Walden portrait is important to me, as I believe everything involved will either support or hinder the image. The backdrop I choose is one of the most important parts of my decision process."

TRICOAST PHOTOGRAPHY

"We recently opened up a studio and with every other aspect of our business we wanted to stand out from the rest and Denny's Freedom

Cloth® does just that. The ease of use and amazing wrinkle free material matched with designs second to no one in the business has taken our work to another level.

I know when I unfold a Denny's backdrop during a session and I quietly hear our clients say 'Wow look at that backdrop' I know their experience at TriCoast will be a positive one even before we click the shutter. Mixed in with their portable softboxes, Lights and Props, simply put, Denny's helps sell the Experience we give to our clients better than anyone else, and due to it, I can not see ever using another background/prop company."

AARON ADAMS

"Where do I begin?!?! When I first heard about Freedom Cloth®, I was a little skeptical. I mean... 'A backdrop that didn't wrinkle and wasn't a heavy canvas?'

I gave it a try and from the first time I opened the box and hung it up, I was SOLD!!!! The way these things photograph and the hassle-free ease of use is incomparable. Not to mention the HUNDREDS of designs as well as the possibility of creating a totally one-off design of your own.

You've all heard of the awesome customer service that Denny's provides. Well, that customer service coupled with the total AWE-SOMENESS of their Freedom Cloth® is a combination that can't be beat!!!"

JANICE LANE CRABTREE

"To all the great people at Denny Manufacturing, I just wanted to take a quick moment to thank everyone there for the exceptional customer service I've received over the past couple of years as well as the industry leading products available to my studio – especially the Freedom Cloth® and Super Cloth backgrounds! I am in love with them! They both photograph beautifully and I love the wrinkle resistant Freedom Cloth® – no more badly wrinkled muslins at my studio!

I can get the Freedom Cloth® off the shelf, put it up, and produce a beautiful portrait without having to steam or stretch and pull and struggle with it first. As an added bonus, one Freedom Cloth® takes up a fraction of the space of my old muslins. I also love your Super Cloth and like the fact that I can order any design in either the Freedom Cloth® or Super Cloth based on my preferences. Thanks again!"

COLLEEN GONSAR AND DARTY HINES

Colleen Gonsar

Darty Hines

"Colleen & Co. is constantly looking for props and backdrops to separate our studio from the competition. The new Denny Freedom Cloth® is AMAZING! We often look for a muslin that is both versatile and unique. The vibrant colors and design of this Freedom Cloth® is just that. As an added bonus, the material is virtually wrinkle free, even after multiple uses. We just hang it up and start shooting. This unbelievable fabric is just what the photography industry has been waiting for in cloth backdrops."

The Jump Street set gives the realistic feel of a back alley without leaving our studio property. By having this set at our disposal, we no longer have to hunt down that perfect location, which saves us time during a senior session."

JEN HILLENGA

"I am in love with my new canvases from Denny!!! I have several Old Masters canvases and I can't speak more highly of their quality. They add such depth to my images they are just a joy to photograph!

There is just such a richness that is lacking in other canvases I have had. They have quickly become my 'go to' backgrounds....the ones I know will work...the ones I start each session with...the ones that get me my 'money shots'.

The group at Denny Manufacturing have been great to work with! It isn't often that you find a company that provides a superior product and has the customer service to go with it....that is how I try to run my studio and it means a lot to me when I find a vendor who shares that philosophy."

Denny Muslin Track Systems

Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Muslin Track Section.
- A 10' wide muslin backdrop takes up 1' - 1 1/2' of storage space on the system.
- Ordering muslin track sections that are 8' wide or less can ship via UPS. All muslin track sections longer than 8' will ship via truck.
- To hang your muslin backdrop, most prefer to use one MCH-15/MC-15 per foot of the backdrop.

Muslin Track System Pricing

Our Muslin Track System keeps your muslin and other fabric backdrops easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backdrops can easily be managed on one track. Have your studio dimensions ready for the sales associate to help you order just what you need. Track system sold by the foot and is shipped via UPS up to 8' in length. Longer pieces require motor freight shipping. One clip and one hook is included with each foot of track sold.

Photographer Testimonials

"I love the Denny Scenic Design pieces I have in my studio and so do my customers! They are always so surprised to find out my brick wall and Bourbon Street set are not 'real.' I also have 4 other FlexTex® [backdrops] that I can use as a wall or floor! Everything is so versatile and that is a must for a small studio!"

– Janice Lane Crabtree

Darty Hines

Colleen Gonsar

"We were surprised and delighted with how much depth and realism comes through when using the Flex- Tex® backdrops. These backdrops are a client favorite and we continue to use our FlexTex® on a daily basis, especially during senior season!"

– Colleen Gonsar and Darty Hines
of Colleen & Co.

"I was getting tired of 'PHONY' looking studio props and sets until trying Denny Scenic Design sets. Wow, these give my work a fresh new face-lift with quality results. I especially relate to 'Plantation' which can be used beautifully with families both indoors or outdoors to provide that 'LOOK' which sells."

PHOTO BLACK

The ultimate black material for photography! This special substrate is finished on both sides with a matte finish. The finish allows it to photograph a true black, unlike dyed muslins which reflect and appear grayish. This material also works well with color gels. Each Denny Photo Black backdrop comes with a "rod pocket/hemmed loop" on top for support with a portable backdrop stand system.

Umbrellas, Light Cube Kit & Denny Rail System

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light.....The smaller the light source and the greater the distance from the the subject, the sharper the light.

Umbrellas: If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

Soft Boxes: (Round or rectangular or square) are photographically safer to use than umbrellas.

Save 25%

WHITE UMBRELLA

This translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

Safari Luminations FOLDABLE Softboxes

Denny's New Zebra Foldable Softboxes has easy umbrella-like assembly which saves you time and frustration from the standard Softboxes that require a lot of time with rod assembly. The patented Zebra Foldable Softboxes are available Rectangular, Octagonal, Square and as a Strip box in a variety of sizes to accommodate your studio needs.

What are Softboxes? Softboxes were developed to help guide the direction of lighting needed for different types of portraiture. The perfect quality of light can be achieved by using the right type and/or quantity of Softboxes and Grids. The choice of Softbox and/or grid helps determine the coverage of light on the subject and the backdrop. Softboxes are often easier to manage than umbrellas when it comes to controlling the amount of light that falls on the backdrop or backdrop of an image. A softbox can be 'feathered', or aimed to direct stray light away from the backdrop. "Barn doors" and "honeycomb grids" can also be used to restrict the area illuminated by softboxes.

Soft Box Light Grids

What are Grids? Grids are important accessories for lighting systems. The use of grids alters the intensity and the shape of the light output from your softbox. To achieve a more narrow wash of light, use a grid. The wash of light will be determined by the density of the grid and the distance of the light from the subject.

A QUICK OVERVIEW

Before You Order, You Should Know...

PICK YOUR SIZE AND STATE IT CLEARLY

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted backdrop; you should first format your intended photo shoot so that you can properly determine the size requirements of the backdrop you intend to use.

Width by Height dimensions should always be used.

SHIPPING INFORMATION

WHAT IS WOOD MOUNTING?

Wood mounting is **COMPLIMENTARY** on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

LIFT SYSTEM MOUNTING

If you have an existing Lift/Roller System that you will be mounting the backdrop on that you ordered, you may request:

NO TOP WOOD MOUNTING/BOTTOM WOOD ONLY!

If requested, we will only put round wood at the bottom to ship.

How We Ship

We ship by UPS whenever possible. Merchandise exceeding UPS weight and size must be shipped via motor freight or air freight. Air freight and motor freight are priced individually, depending on weight. Depend on us to ship the best and cheapest way.

LOST OR DAMAGED ORDERS

INSPECT YOUR SHIPMENT IMMEDIATELY UPON RECEIPT!

If damage is discovered, immediately notify the carrier. Without the carrier's inspection report, you will not be compensated for your damage.

What is that Q in the Corner?

IT'S JUST ONE OF OUR FASTER SHIPPING OPTIONS!

It's Denny's QuickShip! We have selections noted by a "Q" (QuickShip) symbol on several size-restricted MM (Master Muslin 10'x24') and TwistFlex (size 6'x7' only) backdrops throughout the catalog. Any OM (Old Master Hand-Painted) canvas backdrop is available as a Quickship in a size 7'x8' only. These items may be ordered in quantities up to 3 and can expect shorter shipping times. We keep these popular items in stock and they can often be shipped within 4 business days after the order has been processed.

How Much Will Shipping Cost?

In order to serve you better, we have given every item in our catalog a shipping code (see chart below). This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via UPS ground service only (our first choice). These prices and codes only apply to items that can ship via UPS. Some items of similar sizes are shipped together to reduce costs. For example, we will ship two 5' x 6' backdrops together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated. **All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change. All duties and taxes are to be paid by the recipient.**

WINDOW-SHADE & KWIK CHANGE PRICING

One mounting choice is our window-shade style. We attach the backdrop you choose to a wood roller with an internal spring or a chain-drive metal roller giving you the ability to maneuver the backdrops like window shades. On this style, a lighter fabric is used in order to extend the retracting life of your roller. (See our portable and wall mounted system in the Specialty section of the catalog.) In selected sizes, you can choose any of our traditional hand-painted or computer-painted backdrops as window-shade backdrops. Please specify the backdrop size and the roller length when ordering. If you have any further questions, please contact our sales department. **Width by Height dimensions should always be used.**
