To Our Customers and Friends,

We take pride in being one of the leaders in our industry and strive each year to create new and exciting products to help you succeed in your business. This year besides the many new Backdrop designs we have introduced our new "Denny Roll UP Floors." This is an amazing new product for photographers that enables them to mix and match floors with their backdrops. The new floors come in many designs and are produced in our facility with our usual stringent quality control standards. They are made of neoprene rubber and photograph with extreme realism. They are fun and easy to work with! Just picture them as a big mouse pad that is light-weight, portable, and easy to store. In addition they are anti-slip, very durable, soft to the touch, and will certainly add another dimension to your photography.

This past summer we launched a new comprehensive website for your convenience and will continue to make improvements through out the year. Please register for our weekly email specials by going to www.dennymfg.com and save up to **70%** on some items throughout the year.

In addition to registering for an account on our website, you can also follow us on our Blog www.dennymfg.blogspot.com, Facebook www.facebook.com/DennyMfg and Twitter www.twitter.com/dennymfg to get the most up to date information on our products, contests and giveaways! I hope you will like our new catalog and the many new products offered this year.

I hope you have a great year and many thanks for your orders!

Best Wishes,

Denny Variali
Chairman & CEO

"I've always loved everything I've purchased from Denny [Manufacturing]! I have many products including Freedom Cloth, Super Cloth, Roll-Up Floors, and FlexTex Backdrops. Denny is continually offering products that are current for the senior market and that enables me to have great looks at my studio without any more effort than looking at their website and placing my order. I love the Sassy Swank Sets. How much easier can Denny make it for me? You get a background with a baseboard and a matching roll-up floor! Not only is that set ready to go but I can then mix and match them with all of my other backgrounds and floors! Thanks Denny for being such a great partner in my business."

WHAT YOU'LL FIND INSIDE...

HAND-PAINTED BACKDROPS

Our Hand-Painted Backdrops are of the highest quality and available in three different styles; Old Master (OM), Master Muslin (MM) and Foldable Twist Flex (TM). Be sure to reference your selection (OM, MM or TM) when ordering. As you will see, we have a wide range of color tones from high to low key that are sure to please your photographic needs. After 40 years of experience, we have mastered the most delicate of color change in our Hand-Painted backdrops.

COMPUTER PAINTED BACKDROPS

NEW! Denny Freedom Cloth® backdrops! After years of research to find a lightweight, wrinkle-resistant fabric similar to muslin, we have found the special material! In addition to this fabulous new material, the Computer Painted backdrops are available in a canvas-like material called "Supercloth" as well as a TwistFlex™ Portable Backdrop.

SPECIALTY BACKDROPS

In addition to our Hand-Painted and Computer Painted backdrops, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backdrops, support systems and miscellaneous items can help your studio function at its best.

SASSY SWANK SETS

Our NEW Sassy Swank Sets bring a realistic indoor look to your images. Each set includes an 8'x10' backdrop which has a realistic looking printed baseboard and an 8'x8' floor (two 4'x8' sections). There will be a 6" tuck flap of material below the printed baseboard that you should tuck under the neoprene floor. Make your purchase today and take advantage of the latest trend in studio photography!

ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

QUICKSHIP BACKDROPS

We have a selection of Quickship backdrops that ship within 4 business days. The Quickship backdrops are size restricted: MM(Master Muslin) 10'x24', OM (Old Master) 7'x8' and TM (Twist Flex) 6'x7'. These items may be ordered in quantities up to 3 and can expect shorter shipping times. We keep these popular items in stock and they can often be shipped within 4 business days after the order has been processed.

NEED A WIDE BACKDROP TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Computer Painted Freedom Cloth® (CPM) backdrops are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Backdrop eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of bad weather on the day of your photo shoot. Choose from any of our Computer Painted Backdrops. Traditionally, our Computer Painted Backdrops have been printed on a canvas-like material called Super Cloth™.

The Computer Painted Freedom Cloth® backdrops are made on wrinkle-free material which can be easily draped or pulled tight for a more traditional effect. The material is a compact which easily fits into the FREE muslin bag for easy portability.

When ordering Freedom Cloth® backdrops, make sure you specify width x height to avoid any printed dimensional errors. A three-inch hem is put in the top width of the backdrop to alleviate the need for backdrop clamps! It is safe to use an iron, steamer or dryer on the backdrop should it acquire wrinkles.

Production time is approximately 2-3 weeks for Computer Painted backdrops. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

You can get any computer painted backdrop as a TwistFlex™. TwistFlex™ backdrops are available in 5' x 6' and 6' x 7'. These backdrops twist down in their self-storing bags to 24" & 33" respectively.

Freedom Cloth® Track Systems

Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Freedom Cloth® Track Section.
- A 10' wide Freedom Cloth® backdrop takes up 1' - 1 1/2' of storage space on the system.
- Ordering Freedom Cloth® track sections that are 8' wide or less can ship via UPS. All Freedom Cloth® track sections longer than 8' will ship via truck.
- To hang your Freedom Cloth® backdrop, most prefer to use one MCH-15/MC-15 per foot of the backdrop.

Freedom Cloth® Track System Pricing

Our Freedom Cloth® Track System keeps your Freedom Cloth® and other fabric backdrops easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backdrops can easily be managed on one track. Have your studio dimensions ready for the sales associate to help you order just what you need. Track system sold by the foot and is shipped via UPS up to 8' in length. Longer pieces require motor freight shipping. One clip and one hook is included with each foot of track sold.

Another Denny Exclusive!

After years of concerns over sagging and creasing full length canvases, Denny has found a special material called Super Cloth™! This is a non-woven material that has proved to be durable over time. All backdrops are mounted with flat wood across the top. Three 5/8" holes are drilled on the back of the top wood which allows easy insertion of backdrop stand. A round dowel is attached along the bottom width of each backdrop. Velcro straps on each end keep it securely closed when not in use.

What Is Wood Mounting?

Wood mounting is COMPLIMENTARY on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

PHOTO BLACK

The ultimate black material for photography! This special substrate is finished on both sides with a matte finish. The finish allows it to photograph a true black, unlike dyed muslins which reflect and appear grayish. This material also works well with color gels. Each Denny Photo Black backdrop comes with a "rod pocket/hemmed loop" on top for support with a portable backdrop stand system.

UMBRELLAS

White Umbrella: This translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

Silver Umbrella: Provides the maximum light output (1/2 F-Stop more light than the other umbrellas), though the light reflected is harsher than the white material. It is best suited as a main light on single individuals when you want more secular highlights in your portrait and if you have a very good understanding of lighting.

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light.....The smaller the light source and the greater the distance from the the subject, the sharper the light.

Umbrellas: If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

Soft Boxes: (Round or rectangular or square) are photographically safer to use than umbrellas.

FOLDABLE Softboxes

Denny's Foldable Softboxes has easy umbrella-like assembly which saves you time and frustration from the standard Softboxes that require a lot of time with rod assembly. The patented Foldable Softboxes are available Rectangular, Octagonal, Square and as a Strip box in a variety of sizes to accommodate your studio needs.

What are Softboxes? Softboxes were developed to help guide the direction of lighting needed for different types of portraiture. The perfect quality of light can be achieved by using the right type and/or quantity of Softboxes and Grids. The choice of Softbox and/or grid helps determine the coverage of light on the subject and the backdrop. Softboxes are often easier to manage than umbrellas when it comes to controlling the amount of light that falls on the backdrop or backdrop of an image. A softbox can be 'feathered', or aimed to direct stray light away from the backdrop. "Barn doors" and "honeycomb grids" can also be used to restrict the area illuminated by softboxes.

Soft Box Light Grids

What are Grids? Grids are important accessories for lighting systems. The use of grids alters the intensity and the shape of the light output from your softbox. To achieve a more narrow wash of light, use a grid. The wash of light will be determined by the density of the grid and the distance of the light from the subject.

A QUICK OVERVIEW

Before You Order, You Should Know...

PICK YOUR SIZE AND STATE IT CLEARLY

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted backdrop; you should first format your intended photo shoot so that you can properly determine the size requirements of the backdrop you intend to use.

Width by Height dimensions should always be used.

SHIPPING INFORMATION

WHAT IS WOOD MOUNTING?

Wood mounting is **COMPLIMENTARY** on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

LIFT SYSTEM MOUNTING

If you have an existing Lift/Roller System that you will be mounting the backdrop on that you ordered, you may request:

NO TOP WOOD MOUNTING/BOTTOM WOOD ONLY!

If requested, we will only put round wood at the bottom to ship.

How We Ship

We ship by UPS whenever possible. Merchandise exceeding UPS weight and size must be shipped via motor freight or air freight. Air freight and motor freight are priced individually, depending on weight. Depend on us to ship the best and cheapest way.

LOST OR DAMAGED ORDERS

INSPECT YOUR SHIPMENT IMMEDIATELY UPON RECEIPT!

If damage is discovered, immediately notify the carrier. Without the carrier's inspection report, you will not be compensated for your damage.

What is that Q in the Corner?

It's JUST ONE OF OUR FASTER SHIPPING OPTIONS!

It's Denny's QuickShip! We have a selection of Quickship backdrops that ship within 4 business days. The Quickship backdrops are size restricted: MM(Master Muslin) 10'x24', OM (Old Master) 7'x8' and TM (Twist Flex) 6'x7'. These items may be ordered in quantities up to 3 and can expect shorter shipping times. We keep these popular items in stock and they can often be shipped within 4 business days after the order has been processed.

How Much Will Shipping Cost?

In order to serve you better, we have given every item in our catalog a shipping code (see chart below). This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via UPS ground service only (our first choice). These prices and codes only apply to items that can ship via UPS. Some items of similar sizes are shipped together to reduce costs. For example, we will ship two 5' x 6' backdrops together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated. **All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change. All duties and taxes are to be paid by the recipient. All shipping codes/rates provided are limited to all Continental US states. For all other locations (Puerto Rico, Hawaii, Alaska and International Shipments), Please feel free to request a quote from a sales associate.**

WINDOW-SHADE & KWIK CHANGE PRICING

One mounting choice is our window-shade style. We attach the backdrop you choose to a wood roller with an internal spring or a chain-drive metal roller giving you the ability to maneuver the backdrops like window shades. On this style, a lighter fabric is used in order to extend the retracting life of your roller. (See our portable and wall mounted system in the Specialty section of the catalog.) In selected sizes, you can choose any of our traditional hand-painted or computer-painted backdrops as window-shade backdrops. Please specify the backdrop size and the roller length when ordering. If you have any further questions, please contact our sales department. **Width by Height dimensions should always be used.**
